# HABITATS Leaf

5905-900C

Designed by  
Alexander Qual, Rethink

Habitats leaf is part of the Vestre Habitats series, where the products are designed to protect and increase biodiversity in cities. Leaf is an insect hotel that gives insects a home in urban neighbourhoods. The shape of the product is based on a stylised leaf. The design is minimalist and also has a sculpture-like character which can easily be placed either alone or in groups. Leaf can be placed in planters, flower beds, on roof terraces or in parks—you can let your imagination run wild. The most important thing to remember is to ensure that the biological, species-typical parameters are considered and thus enrich the opportunities for insects to survive in urban environments.

**WINNER**  
2022

### Anchoring/assembly

### Primary material

Hot-dip galvanised and powder-coated steel

The powder coating process was developed to satisfy the tough requirements of the Norwegian offshore industry. Corrosion class C5-M

### Colour

RAL 1014 - Ivory

Powder coated with Jotun facade for standard colours. Vestre offers more than 200 standard RAL classic colours at no extra charge.

### Sustainability

Indicators	Global warming	Total energy used	Recycled materials
Unit	kg CO <sub>2</sub>	MJ	%
Cradle to Gate A1-A3	80	119	0

### Certifications
